STATEMENT ACCOMPANYING FORM PTO/SB/64/PCT

Sir,

The Applicants have always considered international patent application number PCT/EP2004/011457 to be of value to them. The Applicants designated the United States of America in the international patent application and always maintained a strong desire to enter that application into the national phase before the United States Patent and Trademark Office (U.S. PTO) and to ultimately obtain a United States Patent therefrom.

The Applicants delay in entering the national phase was not caused by any desire to defer patent prosecution expenses or official fees. Further, no internal decision was taken by the Applicants to abandon the application. Rather, the entire delay was due to an internal miscommunication during the international phase.

Respectfully submitted,

Jacobus C. Rasser
